HSE 360° SUMMIT

21 - 22 OCTOBER, 2026 | ARCOTEL WIMBERGER WIEN | VIENNA, AUSTRIA

EVENT INTRODUCTION

This two-day conference brings together HSE leaders, safety professionals, and industry experts to explore how health, safety and environment are being reshaped by digitalization, sustainability, and changing workforce expectations. As organizations face increasing regulatory complexity, technological disruption, and ESG scrutiny, the role of HSE has never been more strategic. Day One focuses on the big picture, examining global trends, AI-driven risk monitoring, automation risks, and the integration of safety with environmental and social responsibility.

Participants will explore how predictive technologies and real-time data are transforming risk management, while also addressing the ethical and human challenges that come with rapid innovation. The programme places strong emphasis on preventing serious Injuries and fatalities, strengthening critical controls, and preparing for complex emergency scenarios. Interactive panels and discussions will highlight how the safety profession itself must evolve in a digital world.

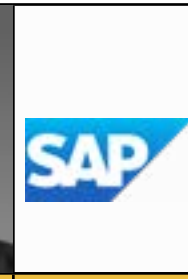

Day Two shifts from strategy to practice, offering parallel tracks that dive into culture, leadership, human factors, and high-risk operations. Sessions will examine psychological safety, neurodiversity, incident investigation, and proactive risk management across industries such as energy, construction, and transport. Through case studies, roundtables, and cross-track dialogue, attendees will share lessons, challenge assumptions, and build practical insights. Together, the conference provides a forward-looking, people-centred roadmap for shaping resilient, future-ready HSE systems to 2030 and beyond.
